Show addition and subtraction

NAME	DATE

1 Work out 359 + 202 in columns. Show each trade and write the answer.

Carry here

	Hundreds	Tens	Ones
	3	5	9
+	2	0	2

2 Leo reads 281 pages one week and 308 pages the next week. Round each number to the nearest hundred to estimate. About how many pages does Leo read in all?

Show addition and subtraction

3 Work out 903 – 326 in columns. Show each trade and write the answer.

Regroup here

	Hundreds	Tens	Ones
	9	0	3
−	3	2	6

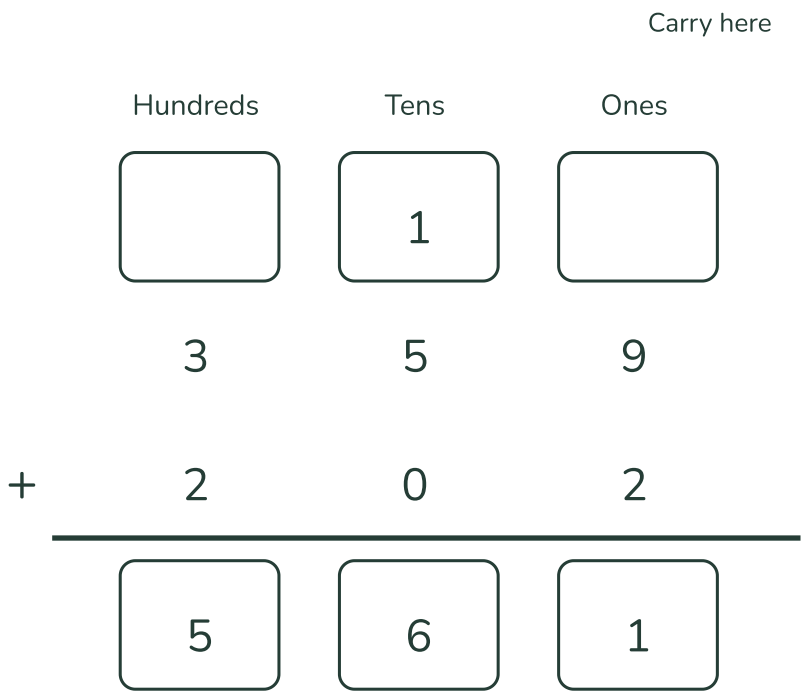

4 A bus has 30 children on it. At the first stop, 15 children get off. At the next stop, 7 children get on. How many children are on the bus now?

Show addition and subtraction

1. Place-value columns stay aligned. Records every carry in the next place. The answer is 561. Check both the regrouping and the result; an isolated answer does not demonstrate the method.

Evidence for the stated action: The written place-value layout, required carries and result are checked together; a total alone is insufficient.

Place-value columns stay aligned. Records every carry in the next place. The answer is 561. Check both the regrouping and the result; an isolated answer does not demonstrate the method.

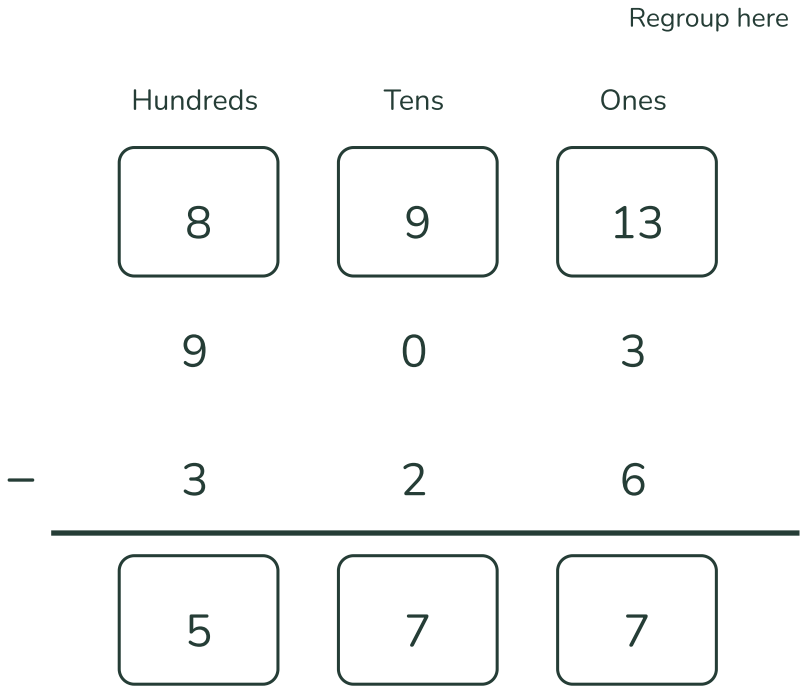

2. 600

Evidence for the stated action: Checks the bounded response named here against the supplied problem. A single example does not certify the whole parent skill or outcome.

3. Place-value columns stay aligned. Records the exchanged values above every changed place, including the exchange through zero when needed. The answer is 577. Check both the regrouping and the result; an isolated answer does not demonstrate the method.

Evidence for the stated action: The written place-value layout, exchanged values and result are checked together; a difference alone is insufficient.
