3

Look closely at shapes

1 Circle the circle.

1

2

3

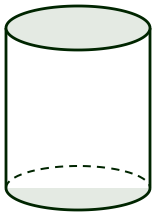

Supporting evidence: Identify a named shape or solid. Recognition contributes identification evidence under Alberta's broader wording. It does not automatically certify the separate atomic naming skill.

Answer: 2

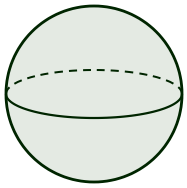

Look closely at shapes

2 Circle the cube.

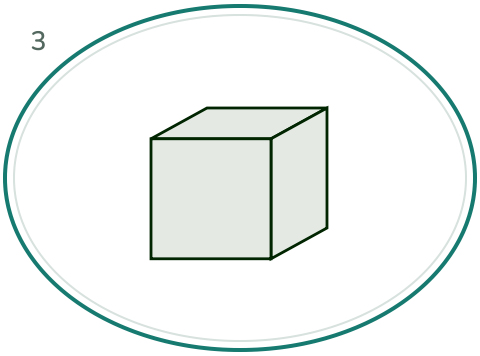

1

2

3

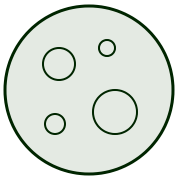

Supporting evidence: Identify a named shape or solid. Recognition contributes identification evidence under Alberta's broader wording. It does not automatically certify the separate atomic naming skill.

Answer: 3

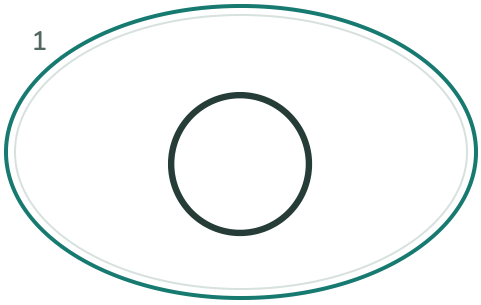

Look closely at shapes

3 Which flat shape looks like the outline of this moon? Circle it.

moon

2

3

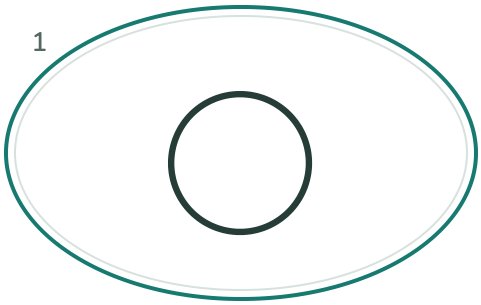

Direct evidence: Relate a natural object to a familiar flat or solid shape. The skill explicitly accepts naming or pointing. A picture match is direct recognition evidence in the natural-object context, not oral naming evidence.

Answer: 1

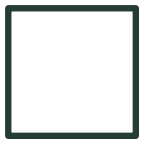

Look closely at shapes

4 Circle the shape with a curved part.

1

2

3

Practice: Recognize a curved shape. Circling a curved shape does not independently demonstrate describing it in the child's own words.

Answer: 1
