

Estimate a length using a benchmark

NAME	DATE	SCORE / 10
------	------	---------------

1

A child's hand is about 10 centimetres wide. A table is about 8 hands long. About how many centimetres long is the table?

2

A paper clip is about 3 centimetres long. A pencil is about 6 paper clips long. About how many centimetres long is the pencil?

3

A door is about 2 metres tall. A tree is about 3 doors tall. About how many metres tall is the tree?

4

A child's hand is about 10 centimetres wide. A rug is about 8 hands long. About how many centimetres long is the rug?

5

A paper clip is about 3 centimetres long. A crayon is about 4 paper clips long. About how many centimetres long is the crayon?

6

A door is about 2 metres tall. A house is about 3 doors tall. About how many metres tall is the house?

7

A child's hand is about 10 centimetres wide. A book is about 3 hands wide. About how many centimetres wide is the book?

8

A paper clip is about 3 centimetres long. A shoe is about 7 paper clips long. About how many centimetres long is the shoe?

9

A paper clip is about 3 centimetres long. A spoon is about 5 paper clips long. About how many centimetres long is the spoon?

10

A child's hand is about 10 centimetres wide. A desk is about 5 hands wide. About how many centimetres wide is the desk?
