

Interpret division as measuring out equal groups

NAME	DATE	SCORE / 10
------	------	------------

- 1** Leo has 40 pens. Leo puts 10 pens in each bag. How many bags can Leo fill?

- 2** Ivy has 90 pens and puts 10 pens in each bag. What number goes in the box?

$$90 \div 10 = \square$$

- 3** 90 children stand in groups of 10. How many groups are there?

- 4** Ivy has 12 marbles and puts 6 marbles in each bag. What number goes in the box?

$$12 \div 6 = \square$$

- 5** Emma has 35 cookies and puts 5 cookies in each bag. What number goes in the box?

$$35 \div 5 = \square$$

- 6** Leo has 27 cookies. Leo puts 9 cookies in each bag. How many bags can Leo fill?

-
- 7** Noah has 16 pens. Noah puts 2 pens in each bag. How many bags can Noah fill?

-
- 8** Noah has 54 cookies and puts 6 cookies in each bag. What number goes in the box?

$$54 \div 6 = \square$$

-
- 9** Ivy has 70 marbles. Ivy puts 10 marbles in each bag. How many bags can Ivy fill?

-
- 10** Emma has 28 pens. Emma puts 4 pens in each bag. How many bags can Emma fill?

Interpret division as measuring out equal groups

1	4	2	9
3	9	4	2
5	7	6	3
7	8	8	9
9	7	10	7
