

Write the ordered pair for a plotted point

NAME	DATE	SCORE
		/ 10

- 1** A point is plotted on the coordinate plane below. What ordered pair names the point?

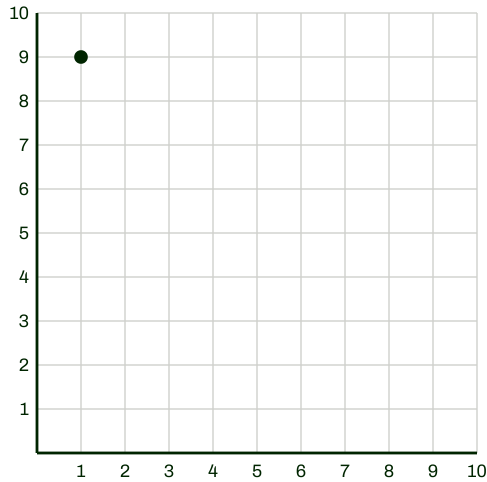

- 2** A point is plotted on the coordinate plane below. Noah says the ordered pair for the point is (4, 6). What mistake, if any, did Noah make?

- ☐ There is no mistake
 ☐ Only the y-coordinate is wrong
☐ The two numbers are in the wrong order
 ☐ Only the x-coordinate is wrong

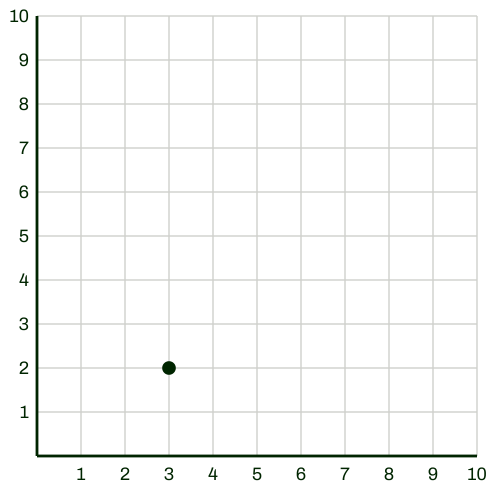

3

A point is plotted on the coordinate plane below. What ordered pair names the point?

4

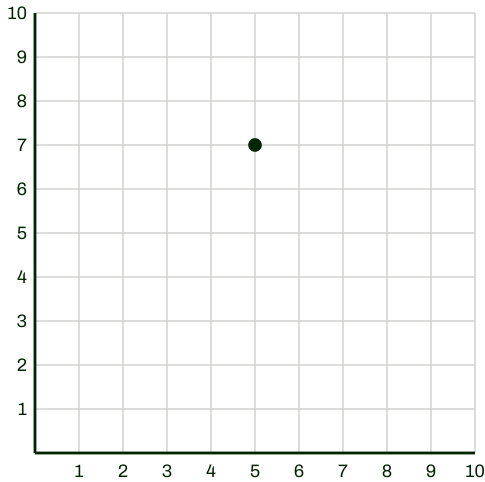

A point is plotted on the coordinate plane below. Ivy says the ordered pair for the point is (3, 3). What mistake, if any, did Ivy make?

- ☐ Only the x-coordinate is wrong ☐ There is no mistake
☐ The two numbers are in the wrong order ☐ Only the y-coordinate is wrong

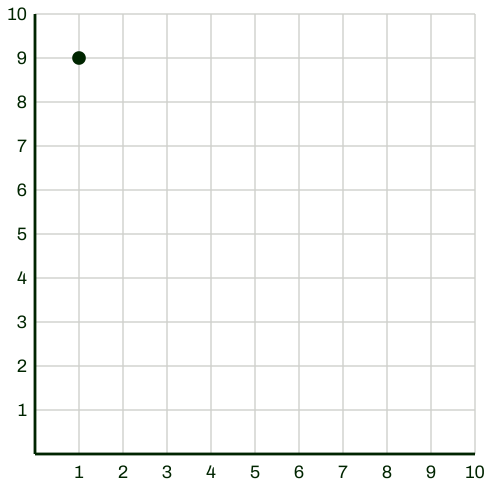

5

A point is plotted on the coordinate plane below. What ordered pair names the point?

6

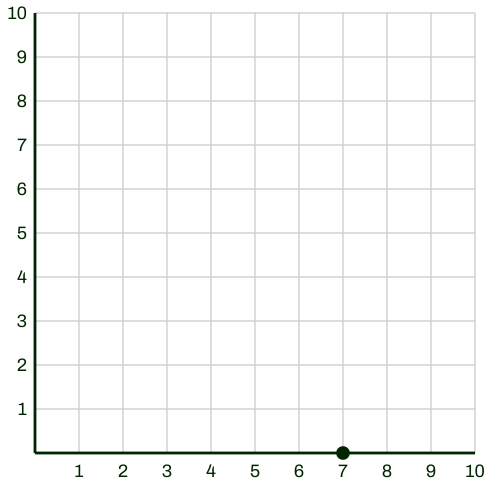

A point is plotted on the coordinate plane below. Noah says the ordered pair for the point is (0, 9). What mistake, if any, did Noah make?

- ☐ The two numbers are in the wrong order
 ☐ Only the y-coordinate is wrong
☐ There is no mistake
 ☐ Only the x-coordinate is wrong

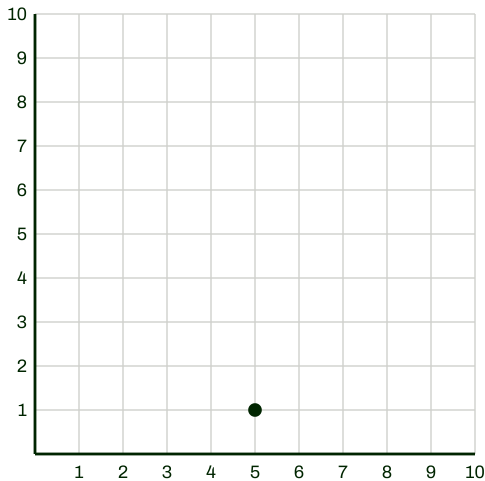

7

A point is plotted on the coordinate plane below. What ordered pair names the point?

8

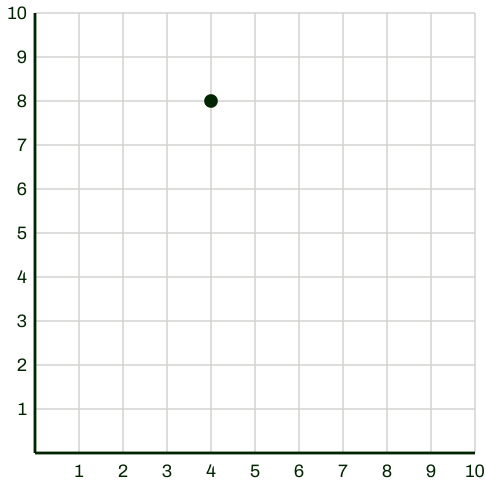

A point is plotted on the coordinate plane below. Leo says the ordered pair for the point is (5, 1). What mistake, if any, did Leo make?

- ☐ Only the y-coordinate is wrong
 ☐ Only the x-coordinate is wrong
☐ The two numbers are in the wrong order
 ☐ There is no mistake

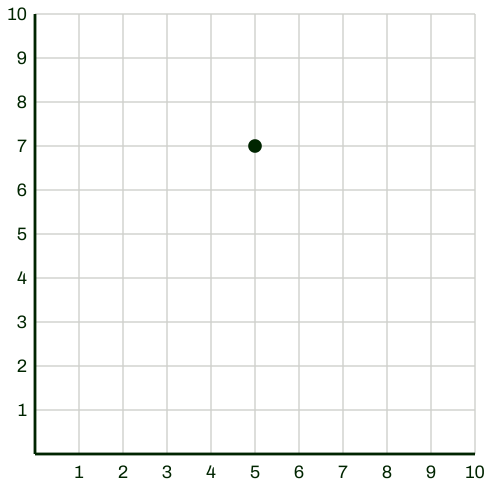

9

A point is plotted on the coordinate plane below. What ordered pair names the point?

10

A point is plotted on the coordinate plane below. Ana says the ordered pair for the point is (7, 5). What mistake, if any, did Ana make?

- ☐ There is no mistake
 ☐ Only the y-coordinate is wrong
☐ The two numbers are in the wrong order
 ☐ Only the x-coordinate is wrong

Write the ordered pair for a plotted point

1 (0, 9)

3 (1, 9)

5 (5, 7)

7 (7, 0)

9 (4, 8)

2 The two numbers are in the wrong order

4 Only the y-coordinate is wrong

6 Only the x-coordinate is wrong

8 There is no mistake

10 The two numbers are in the wrong order
