Count forward aloud

Work together

1 Start at five. Count on to eight. What number comes next?

Direct evidence: Count forward from a specified start and give the next number. The adult listens to the complete spoken sequence and the additional next-number response without visual aids or help.

Administer separately

1. Keep this sheet where the child cannot see it. No objects are needed.
2. Say: “Start at 5. Count on, and stop at 8.”
3. Listen without counting along or helping.
4. Then ask: “What number comes after 8?”

Accept: Starts at 5, not at 1, and says 5, 6, 7, 8 in order, then says 9 comes next. Going back to 1 to count up to 5, skipping a number, or not knowing what comes after 8 is Not yet.
