Observe the last count word

Name	Date

Work together

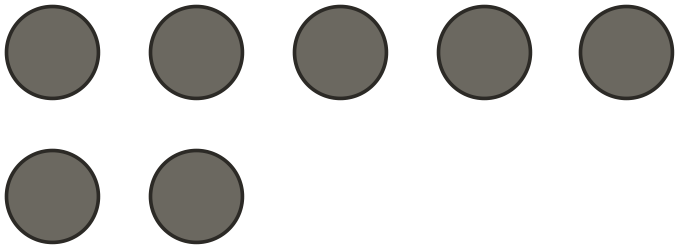

1 Count the counters. How many counters are there?

Observe the last count word

Work together

1 Count the counters. How many counters are there?

Direct evidence: Use the last count word without recounting. The adult observes the count and asks how many afterwards, recording whether the child answers without starting the count again.

Administer separately

1. Put 7 counters in a row in front of the child. No counters? Cut out the ones below.
2. Say: “Count the counters.”
3. When the child has finished, ask: “How many counters are there?”
4. Do not count along, point or help.

Accept: Counts the 7 counters, then answers “7” straight away when asked how many, without counting them again. Counting them all again to answer, or answering with a number other than the last one said, is Not yet; so is a count that does not end on 7.

Record: The child said
